

Citizens For San Andreas Meeting
February 6, 2008

Jim Kavanagh opened the meeting with the first item on the agenda, Marian Coahran and Arlene Weissman to present their work on the Conservation Element of the Community Plan. Discussion resulted in a consensus to confine the scope of it to San Andreas specifically.

Lynn O' Conner stated that the next General Plan meeting will feature Issues and Opportunities, from the results of the last two sets of workshops.

Zerrall McDaniel and Diane Keane gave an update on the proposed map. They are composing a letter, as suggested by Lynn O'Conner, to major landowners outside the nine square miles boundary of San Andreas to inform them of the proposed boundary. Lynn also suggested they keep documentation that the homeowners were approached.

Jim Kavanagh gave an update on his work on the Transportation Plan. He thanked Lynn O'Conner and Tyler Summersett for their help on it last week. They suggested we have all available numbers of supporting documentation in the report.

Next meeting is Wednesday, February 27 at Oak Shadows Park, 5:30-7:00.
