

Citizens for San Andreas Meeting April, 23, 2008

Jim Kavanagh opened the meeting with an update on his Circulation study. He had a few questions for Tom Infusino about implementation.

There were some comments on Jim's presentation on the Circulation. One was that there is a negative employment base in San Andreas. Another was that the bypass wasn't mentioned in the report. That is because it is in the current Plan. Tom Infusino suggested we address the bypass in Jim's report also.

Tom asked if everyone would get their reports in to him so he can review them before the next meeting. He also suggested that if there are any things in the old plan that we'd like to see in the new plan to make a reference to it...don't assume anything.

He also suggested to Jim to identify each person who worked on the Community Plan in his page of credits in his report.

Tom volunteered to do a workshop on the planning process after we've all completed our reports.

Next meeting is Wed. May 28th at Oak Shadows.

Meeting adjourned at about 7:30 PM.

Respectfully yours,

Barbara Kavanagh
